XAFIISKA WAXBARASHADA DOWLADA DEEGAANKA SOOMAALIDA
SOMALI REGIONAL STATE EDUCATION BUREAU

Offline Teacher Training and Certification System

One-page summary · For primary teachers (Grades 1–8) in all zones of the Somali Region

What it is

A simple training system on the computer that helps teachers become **more professional**, so that **every student can succeed**. It works **without internet**, runs in any web browser, and is copied to schools with a USB flash disk. It has **7 modules, 35 short lessons and 105 questions**, all in **Somali**, plus a final exam and an official certificate.

Why we need it

- Many teachers have had little training in how to teach, and most schools have no internet.
- Workshops are far, costly and rare. Classes are big, and some students fall behind or leave school.
- The Bureau has no easy way to know which teachers are trained.

How it works

1. Register	2. Learn	3. Practise	4. Pass tests	5. Certificate
Name, school, zone	Short lessons in Somali	Questions with answers	Unlimited tries	Official, with QR code

Benefits

For teachers

- Learn in Somali, in short and clear lessons
- Practical ideas to use the next day
- Unlimited tries, so every teacher can pass
- An official certificate

For the Education Bureau

- Reaches every school in every zone
- Very low cost: no internet, no travel
- Clear records of who is trained
- Certificates anyone can check

When teachers are trained, the whole community benefits

Education does not help only the student. It helps **everyone**:

- **Students** learn more, enjoy school and stay in school longer.
- **Girls** and children of families who move get a fair chance to learn.
- **Parents** see better results and work closely with teachers.
- **The community** gets educated young people who can work, lead, and look after their families.
- **The region** grows: better health, more jobs, and less poverty come from education.

A good teacher today builds a strong community tomorrow.

What we ask

1. Approve an expert review of the lessons. 2. Approve a pilot in a few schools in each zone. 3. Name one focal person in each woreda.
